Partnering in Digital Science

Boehringer Ingelheim

Our goal is to discover and develop breakthroughs in animal health for diseases with significant unmet need. To achieve this, we're investing in cutting-edge science and technology to expand and accelerate our drug discovery for the next generation of treatments and preventive therapies. Beyond our innovative and comprehensive portfolio of products and services to prevent disease and improve the health and well-being of animals, we're identifying and translating the most promising digital innovations into a broad range of impactful applications.

Collaborations with innovative and entrepreneurial partners are helping solve the biggest challenges in animal health. We believe that by working together we can bring critical diversity to innovation and accelerate the next wave of therapeutics that will transform the health and well-being of animals now and in generations to come.

Partnering Interests

Actively pursuing new partnerships in our research focus areas and open to a variety of partnership models to explore:

- Digital platforms and applications to support veterinary – pet owner communication
- Technology platforms to support data management
- Digital diagnostic and monitoring tools.

Research Focus

SCAN ME

- Health monitoring solutions driving actionable improvements of outcomes
- Health data management and assessment (e.g., AI-based algorithms)
- Innovative engagement solutions for vets, producers & pet owners

Collaboration Driving Innovation

- Growing our global community of innovation partners
- Multiple collaborations advancing new therapies
- Long-term partnerships for the next generation of breakthroughs

Investing in Animal Health Innovation

450+ million EUR
R&D for new medicines

Global
R&D presence in Europe, N. America, Asia

~1,200
staff in R&D facilities worldwide

>250
innovation collaborations
